OUR MATERIALS

PoshFelt®
PoshFelt® is a 100% wool acoustic felt. Simply luxurious, PoshFelt® adds a special touch of softness to your space, and with 100+ colorways to choose from, it’ll add a pop of color too.

Elements
Elements is all about texture and bringing nature indoors to you. With 150+ texture options, ranging from woodgrains to metals, there’s a textured finish option for everyone.

Infinity
Infinity is a digital design option that provides infinite opportunities to bring personalization, branding, and custom texture solutions to your project.

Soundcore®
Our Soundcore® recycled PET acoustic felt is the core of our products. We feel good about what we put into our felt, so you can feel good about what you’re putting into your space. With 50+ colorways to choose from, you really can’t go wrong with Soundcore®.

Soundcore® Plus
Soundcore® Plus is exactly what it sounds like - Soundcore® plus a little extra. Soundcore® Plus is 2-4 times thicker than Soundcore®, depending on the thickness option you choose. With 20+ colorways, Soundcore® Plus won’t disappoint.

When you walk into a room with PoshFelt®, you feel it before you feel it. You are surrounded by quiet comfort and stillness of mind, dampening sound and insulating your world, freeing you to focus on the present moment.

PoshFelt’s® edge comes from its softness. While similar products use synthetic materials that feel hard and hollow, we take the high road by delivering a premiere tactile experience that invites people to interact with the world they move through. Our super-soft felted surface makes an immediate, tangible difference that transforms its environment. It invites curiosity, and begs to be approached, to be marveled at and thought about, to be remembered, and to be felt.

Whether a room has a single feature installment, or wall-to-wall coverage, PoshFelt® makes a statement across more senses than any other paneling solution. The quieted hush provided by the presence of PoshFelt® gives a sense of reprieve from a busy day, dulling out the distracting noise of our busy lives.

#### THE PLUSH HUSH

When you walk into a room with PoshFelt®, you feel it before you feel it. You are surrounded by quiet comfort and stillness of mind, dampening sound and insulating your world, freeing you to focus on the present moment.

PoshFelt’s® edge comes from its softness. While similar products use synthetic materials that feel hard and hollow, we take the high road by delivering a premiere tactile experience that invites people to interact with the world they move through. Our super-soft felted surface makes an immediate, tangible difference that transforms its environment. It invites curiosity, and begs to be approached, to be marveled at and thought about, to be remembered, and to be felt.

Whether a room has a single feature installment, or wall-to-wall coverage, PoshFelt® makes a statement across more senses than any other paneling solution. The quieted hush provided by the presence of PoshFelt® gives a sense of reprieve from a busy day, dulling out the distracting noise of our busy lives.
Explore the world with PoshFelt®
Breathe deep and find yourself in the Italian countryside, where the rosy setting sun sends off each day with a wave of warmth. Feel the ease and charm of an evening in crisp Tuscan twilight, and take a perfect moment for yourself.

We have that color.

stroll Italian streets with

rustic blushes

Before you stretches an infinite field of dry gold under an endless spanning sky. Feel the warm, living breeze across the plains, and the lifegiving sunlight on your face as it settles into the horizon in a puddle of golden brilliance.

We have that color.

navigate Kenyan landscapes with

warm golds

Become surrounded in cascading rows of vibrant violets and pinks, a soft celebration of springtime cherry blossoms that brings excitement and energy. Gentle petals like confetti flicker and spin through the air, begging you to notice the joy between each new moment.

We have that color.

breathe Japanese garden aromas with

soft pinks
Let your mind be filled with ambition, inspired by details etched into history through millennia. The bold and historic architecture of Beijing stokes the fire inside with passion, and energizes your drive for success.
We have that color.

Feel the clean and simple joy of ocean air filling your lungs in a city that delivers colorful photo-worthy vistas around every corner. Take a crisp morning stroll along the waterways in Copenhagen, where the bright sun and cool ocean air fill you with optimistic energy.
We have that color.

In Baja, where there’s more sea and sky than solid ground, it all comes together at the beach. Surrounded by soft sand and a tidal breeze, with the rolling waves echoing down the shoreline is where you’ll experience true contentment.
We have that color.
The steel-gray of ancient mountain ranges, hazy from impossible distance, sends your mind far away to feel at the same time humbled and immense. Under the invincible gaze of the mountain, you find wisdom beyond your self.

We have that color.

The dark of night removes us from familiarity, and forces us to see the world differently. In the black tropical midnight of Ecuador, otherworldly volcanoes heave molten stone, leaving luminous trails down the mountainside, casting the faint red glow of fire all across the night.

We have that color.

Experience uninterrupted meditation. In a place so empty as the Arctic, any distraction in the pure white stands out like ink on a blank page, allowing you to focus on just one thing at a time. Breathe deep, and still your mind until nothing remains but clarity, and your goal.

We have that color.
Reflect on the ancient history in the weathered walls of India’s temples. Wander cavernous arches of sculpted stone and clay, and lose yourself in mesmeric detail of the architecture as it tells the story of ages.

We have that color.

Between the bright ocean beaches drawing crisp lines on the horizon and freshwater mountain streams carving through deep thriving forests, Hawaii holds every fresh facet of blue.

We have that color.

In the most “away from home” islands of the Maldives, the borderless blend of sun and sea surrounds you in a dramatic curtain of violet light. Free your mind from normal and routine, and embrace a vivid new perspective.

We have that color.

admire Indian architecture with tawny naturals

CSI Infinity is a living harmony between art and function, providing beautiful aesthetics and branding opportunities for your walls along with dependable noise-reduction performance. With CSI Infinity you can display your company message, guide visitors with directions and maps, or create breathtaking artistic features.

Upgrade your space with a felted view of the city, add a pop of color with bright and innovative patterns, experience life and depth with a custom felt graphic of a mountain scene. No longer are you limited to single, solid colors. CSI Infinity expands the artistic palette beyond the imagination, all within your reach.

**ACOUSTICAL INSULATION**
Outstanding acoustical performance for sound absorption and transmission.

**FIRE RATED**
Complies with building fire codes with a Class A rating per ASTM E84.

**TACKABLE**
Pinnable surface with superior holding characteristics.

**IMPACT RESISTANT**
Impact resistant and shock absorbent.

**ENVIRONMENTALLY FRIENDLY**
100% recyclable, VOC free including formaldehyde, non-toxic and non-allergenic.

**DURABLE**
Will not deteriorate, rot or change color and is non-hygroscopic.
Images

Classy, simple, perfect. CSI Infinity takes your images and turns them into custom felt masterpieces that you’ll feel good about hanging up on your wall. Black and white graphic panels are striking in any space, but you’re not limited to a monochrome palette. Any color you can imagine can be presented on our Soundcore® acoustic felt.

Patterns

Bright, bold, complete. Patterns make simplicity look complex. It’s just one solid layer of Soundcore® with any pattern in any and all the colors your heart desires.
TEXTURES

Want the look of wood without the cost and weight of wood panels? CSI Infinity has you covered. Stone? We've got you there. Concrete? Tile? Brick? Any texture you can think of, we've got it.

GRAPHICS

Visually stunning, soft to the touch, and acoustically sound, CSI Infinity is wall art that you can truly experience.
**THE CORE**

Congregate, collaborate, and be heard. Soundcore® blurs the lines between art and function to solve your design. Whether you need a bold and hip-to-death installation to unify a conference room, or are just looking to keep the sound waves where they ought to be, Soundcore® has the fix.

Subtle or strong, central or sideline, Soundcore's® flexible array of applications will fit right in. This cost-effective, responsible material is the perfect choice for any place people need to be. Break free from the concrete, doll-up the drywall, and design a place that says “This is who we are, and this is the space we occupy”.

**ACOUSTICAL INSULATION**

Outstanding acoustical performance for sound absorption and transmission.

**IMPACT RESISTANT**

Impact resistant and shock absorbent.

**ENVIRONMENTALLY FRIENDLY**

100% recyclable, VOC free including formaldehyde, non-toxic and non-allergenic.

**DURABLE**

Will not deteriorate, rot or change color and is non-hygroscopic.
We like a good night’s sleep. That sleep doesn’t come without knowing that our materials take advantage of eco-friendly opportunities. We source our Soundcore® components responsibly, using 100% recyclable materials to create our Soundcore® Acoustic Fiber. The majority composition of our material comes from post-consumer plastics, which means you’re not forwarding the environmental bill to the next generation.

Our Acoustic Fiber is mindfully crafted with a dizzying array of features to ensure a lasting quality experience. Soundcore® is 100% VOC free (Volatile Organic Compound), which means from day one there will be zero odorous fumes, and zero air toxicity. It’s non-hygroscopic, which means it won’t trap humidity and stays clean and free of rot. It’s tackable, Class-A fire rated, and offers thermal and resonant insulation to build an inherently human habitat.

All of these check-boxes make up a surprisingly lightweight, soft-touch panel that we’re incredibly proud of. We’re excited to offer your space the same quality and peace of mind with our flexible, customizable Soundcore® solutions.
EFFORTLESS OVERHAUL

Rescue a room while skipping the surgery. Soundcore® installs quickly and easily to transform the sensory output of a static environment into something to marvel at. Bring the humble focus of a hushed library into your everyday life. Feel the stillness and calm afforded by acoustic dampening, helping you to stress less and focus on the present. Find the beauty in the marriage of style and function with a visual masterpiece that serves a tangible purpose.

Soundcore® is the supreme solution for cost-effective renovation. Make your space entirely something else, something artful and austere, without knocking out drywall and tearing up the carpet. Soundcore's® affordability makes it an easy choice for wall-to-wall coverage, or a cohesive complementary addition to bring the energy where it needs to be.
In order for a place to become something more than four walls and a door, it needs something extra. It needs depth, function, and a human touch. Soundcore® answers that call with a cost-effective way to provide form and function in a beautiful display.
CRISP AND CLEAR

Soundcore’s® excellent acoustic dampening creates an atmosphere free of wandering white noise and irritating echoes that compete with conversation. When fewer sounds are vying for clarity, it becomes much easier to immerse yourself in a conversation, and avoid distractions. Cutting out auditory interference also reduces stress from the over-stimulation caused by excessive background noise.

The chart opposite this page demonstrates the NRC values of our acoustic fiber. An NRC value of 0 indicates total sound reflection (extreme echoes), while a value of 1 indicates total sound absorption (no reverberation). In order configure your project for optimal NRC, we invite you to speak with our architects as part of our design + build process.
With Soundcore®, any room can become a conference room. Its superior auditory insulation stops echoes, increases speech clarity, and ensures everyone’s ideas can be heard.

**SHARE**

Create an identity, and give each passerby something to think about. Soundcore® can be custom ordered with printing so that you can double down on function and utility, keeping all the great properties of the material with a unique printed design.

**IMAGINE**

With a strong, tackable surface, Soundcore® converts every inch of wall space into a canvas for your thoughts and ideas. Keep every great idea in plain sight, work more efficiently, and get more utility out of your walls.

**ORGANIZE**

Soundcore® creates a calm and humble atmosphere free of auditory distractions, allowing you to further immerse yourself in the things you love.

**RELAX**
Soundcore® encourages conversation and increases auditory comprehension by stifling echoes and quieting the environment. The constant drone of the air conditioner, the traffic outside, the boisterous business next door—all of these contribute to an atmosphere of stressful noise that can keep you feeling on edge. Soundcore’s® versatility means it can fit in anywhere, and custom designs, printing and application means it can integrate seamlessly into your branding amidst a corporate setting.

CORPORATE

Everyone knows the familiar crescendo of a room full of students trying to talk over one another. Soundcore® meets that problem head-on by dampening acoustic reverberation, reducing the need to increasingly raise voices to combat echoes. Our Acoustic Fiber material is also tackable, so every accomplishment and every great idea can be kept in plain sight. A wide array of color choices lets you create vibrant environments in a k-12 setting, and more mature colors and applications at every level of education. The same magic that Soundcore® brings to the classroom can be applied in the hallways, cafeteria and gymnasium with all the same impressive utility.

EDUCATION
In a place where comfort, quiet, and cleanliness are paramount in importance, Soundcore® hits all the marks. A still and calm environment is crucial to recovering patients, as well as the stress levels of everyone in the building, and this is Soundcore's® foremost quality. Beyond that, Soundcore® is VOC free, non-hygroscopic, fire rated and easy to clean. Whether you're outfitting a pediatric center or private practice, Soundcore® is the perfect choice for function and affordability.

In a veritable sea of retail space featuring vacuous, unfinished ceilings, Soundcore® brings conversation back to the table. With our Cumulus ceiling mounted collection, you’re able to hang on to that industrial-chic aesthetic while making your restaurant feel like a restaurant instead of a cafeteria. The safe and clean material allows patrons to enjoy a personal conversation instead of shouting over the clatter of dishes and crosstalk. Soundcore® can also be customized with printing, so your logo can be proudly displayed anywhere.
THAT’S A PLUS

Soundcore® Plus is all about positives. These powerful modular panels adhere directly to flat walls and ceilings to provide acoustic control in a beautiful minimalist format. Soundcore® Plus gives you total control over the aesthetic of your space, and meets an incredible price point that opens up a new world of design possibilities—and that’s a Plus.

Soundcore® Plus is a simple product with big impact on the acoustic environment. At either 1 to 2 inches thick, Soundcore® Plus has the highest NRC rating of any of our products. Simple, sleek, modern, minimalist, effective - that’s Soundcore® Plus.

ABOUT US

We’re a team of designers and doers just trying to keep warm in the heart of Minnesota. We started our company to redefine physical space in the commercial world, by cultivating this idea of modular, permanent panel installations into something that earns more than a second glance. We create contextual, encompassing works of art that enrich the physical world we live in. We’re at the front of a movement creating considerate, mindful environments—one surface at a time.

We’re eager for new challenges and ambitious collaborative projects that bring out the best in our team and yours.
LET’S GET STARTED

Whether you’re workshopping solutions for your project, searching for the perfect design, or starting at square one, CSI Wall Panels is here to make it effortless.

We’d love to start a dialog to find out what you’re looking for and how we can help you get there. Visit csiwallpanels.com to get started or contact us at 800.213.0653.
